

On June 21, we celebrate Entrepreneur's Day in Poland. This holiday was established by a Resolution of the Sejm of the Republic of Poland in 2016. It is a celebration of all business owners - both large and small.

Entrepreneurship is a strong core of our society, driving innovation, creating jobs and prosperity. We have over 4,500 business entities in DzierÅ¼oniÃ³w. The vast majority of them are sole proprietorships and micro and small entrepreneurs. Therefore, appreciating their role is extremely important, because thanks to them it is possible to achieve economic and social development, which contributes to the well-being of society as a whole.

On this occasion, we wish all DzierÅ¼oniÃ³w entrepreneurs:

- success in running your business and fulfillment of all your professional dreams and goals,
- a lot of positive energy and interesting ideas that will help you develop your business,
- good luck in making difficult decisions and overcoming all obstacles on the way to success,
- perseverance, determination and courage in taking on new challenges and implementing ambitious projects,
- stable market position, loyal customers and reliable business partners,
- constant enthusiasm for action and development of your company!

All the best!
