The next phase of renovation in the old town

The renovation of the Market Square has moved on to the next stage. We would like to inform you that from September 2 this year, the Contractor of construction works will make the newly built section of the road and parking spaces available for two-way traffic on the section from ul. Klasztorna to ul. Ghetto Heroes. The exception is the place where the well was discovered - according to the decision of the Conservator of Monuments, it will be covered with a concrete slab.

Additionally, five TAXI parking spaces have been created and marked on the new section of the road, which will be available from September 2. The contractor continues demolition and paving works, moving from Å? widnicka street towards Krasicki street.
