DzierÅ¼oniÃ³w's VENTI company awarded in the "Beauty of flowers and greenery around us"

The "Beauty of flowers and greenery around us" competition has been organized for 8 years in two stages - spring, when squares and lawns are planted, and autumn, when windows, balconies, squares and gardens next to residents' homes and institutions are assessed.

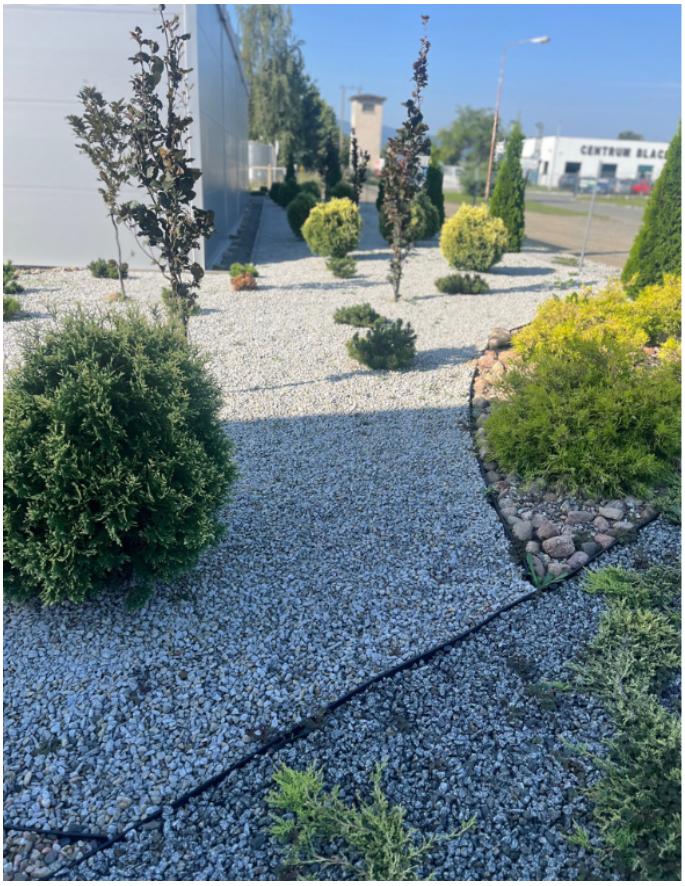

For the 29th time, the residents of DzierÅ¼oniÃ³w beautified our city with greenery and flowers with great passion, for which they were honored during a gala held on October 24 at the Senior Center.

This year's awards were sponsored by the DzierÅ¼oniÃ³w City Hall, Bricomarche, Ogrodnictwo w Grodziszczu, DzierÅ¼oniÃ³w Lovers' Society and the "Maria" company. The event was also enriched by an interesting talk by Ireneusz StÄ?pniak on the role of trees in the ecosystem and human life.

It is worth mentioning that the VENTI company has been providing comprehensive mirror design services and professional manufacturing for many years. The company specializes in mirrors intended for private homes, company headquarters and service premises.

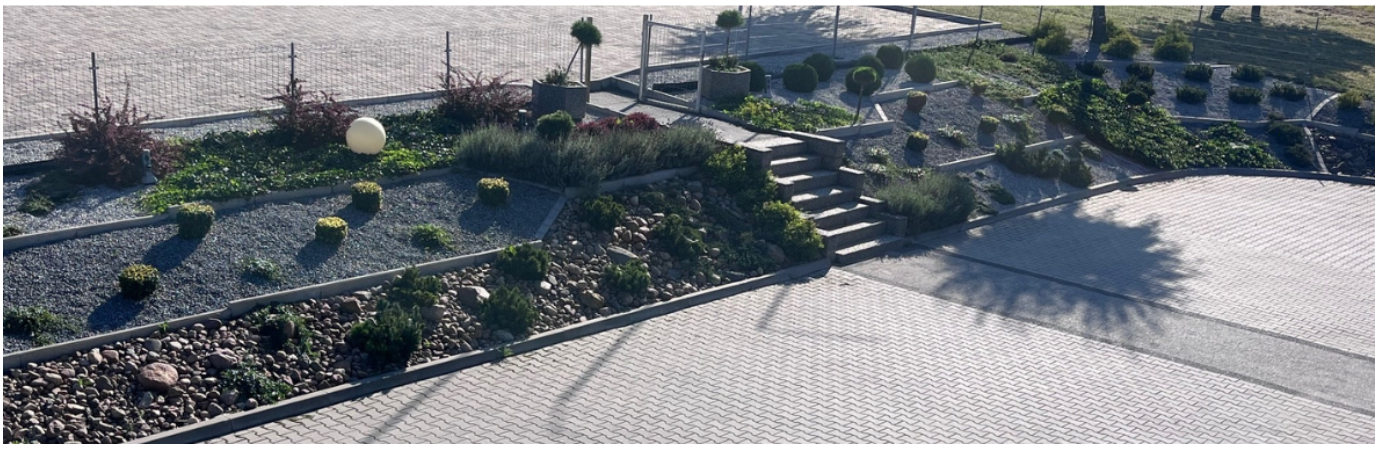

Once again, congratulations to VENTI and thank you for your contribution to beautifying our space!

More information about this year's edition of the competition on the City website.
