Art in the urban space - become a patron of

Can gray concrete flower pots be a showcase of the city? Yes, but only after they are decorated with extremely colorful mosaics. The first use was commissioned by the city on the promenade at ul. WrocÅ?awska. We make the next ones available to the residents of DzierÅ¼oniÃ³w and d, through the jointly created mosaic trail.

On the one hand, we can give a second life to old flower pots, and on the other hand, we can give urban space on the main street and give residents access to it for a fee, says Mayor Dariusz Kucharski. The first mosaic connection is already on the promenade. Made by local artist, Anna Pyrak.

Persons or companies that cause patrons to leave mosaic flower pots in DzierÅ¼oniÃ³w should be covered by an appropriate application to the DzierÅ¼oniÃ³w municipal office. The application form for participation in the "Mosaic Trail of DzierÅ¼oniÃ³w" project should include, among others: name and surname of

the founder, contact details, description of the mosaic project (topic, coloring), visualization of the mosaic project (in the form of a sketch, drawing or computer visualization).

It's up to us, thanks to these mosaic accents in the public space of our city, which have adopted the slogan DzierÅ¼oniÃ³w Moods Positively. This will be the only sensors left behind an artistic trace in the city.

People who want to become the founders of a mosaic using selected flower beds at WrocÅ?awska street in DzierÅ¼oniÃ³w can register for the promotion at the office of the unavailable city, by e-mail at promocja @ um [dot] dzierzoniow [dot] pl (promocja[at]um[dot]dzierzoniow[dot]pl) or by phone at 74 645 08 18.

Each project will be verified by the commission and after a positive assessment, it can be implemented and then transferred to the city. Applications will be accepted until available pots are filled. This will create a colorful trail that will beautify DzierÅ¼oniÃ³w.

The application can be downloaded in an editable version and in PDF format below.
