

We would like to remind you about comments and

You can submit comments and proposals to the Dzierżoniów General Plan until the end of December. It will replace the Study of conditions and directions of spatial development, which defined the method of shaping spatial policy in the city.

The plan will be an act of local law. According to it, new local spatial development plans and decisions on development conditions and land development will be created.

Are you interested in the purpose of a specific area or plot? Complete the ministerial form.
