The next edition of the Inter-School Entrepreneurship Tournament "Young Entrepreneurship Champions 2026" has begun â?? an event that, for the second year now, promotes economic knowledge and develops business skills among young people. The inauguration of this year's competition was highlighted by preparatory workshops held at the Bank SpÃ³Å?dzielczy in DzierÅ¼oniÃ³w. The meeting aimed to introduce participants to the world of economics and prepare them for the Tournament Finals, which will take place in June!

Four-person teams from each school participated in the workshops, learning about the practical aspects of market functioning, financial management and entrepreneurship under the guidance of a banking specialist. The workshops provided not only an opportunity to acquire knowledge, but also to develop

teamwork and analytical skills.

The event would not have been possible without close collaboration with the Bank SpÃ³Å?dzielczy in DzierÅ¼oniÃ³w, which serves as the tournament's co-organizer. Thanks to their commitment, young participants can benefit from professional support and gain valuable experience already during their school years.
Special thanks go to the bank for its openness, professionalism, and active support of young talent. Kudos also goes to the schools that registered their teams, enabling students to participate in this unique event.
