Since yesterday, young, energetic students from five DzierÅ¼oniÃ³w primary schools have been intensively preparing for the Entrepreneurship Tournament Finals. This unique event gives them the opportunity to develop business skills, creative thinking and teamwork.

The first stage of preparation included workshops on entrepreneurship, led by the tournament's co-organizer â?? Bank SpÃ³Å?dzielczy in DzierÅ¼oniÃ³w. Participants gained a solid dose of knowledge and inspiration, providing a foundation for further activities.

The young participants face new challenges. In the near future, they will participate in self-presentation training which will help them effectively present their ideas, and they will also begin creating business plans for their own ventures. Consultations during which teams will refine their concepts under the guidance of specialists, will also be a crucial element of the preparations.

The Grand Finale of the Tournament will take place on June 17th. On that day, teams will present their business projects and compete in an entrepreneurship competition.
